The Canadian Society of Questers (CSQ)

Is a society, dedicated to the growth in knowledge and understanding of its members. We believe that each individual is on a "quest" for personal harmony with themselves, other people, and the complete universe around us. We feel enlightenment is gained through investigating what is often considered mysterious and paranormal. We practice the ancient art of dowsing or divining to initiate contact with the energies and knowledge that are us, pervade us, and make us an integral part of the universe. By promoting growth in our ability and allowing our intuitive sense to extend fully, we tend to gain assurance and serenity within our current place in existence.

The CSQ

Is a non-profit organization that promotes the ancient art of divining in its many forms, including:

♥**Dowsing** for water, minerals, ley lines, and ancient ruins.

♥**Questing/Seeking** for lost or stolen goods, missing persons, and answers to personal queries.

♥**Radiesthesia** to assist in good health by identifying allergies, determining supplements such as vitamins and minerals, and locating sources of diseases.

♥**Intuition** to understand and develop the power of mind.

Divining Tools are often used to assist in contacting and understanding a Diviner's intuition or link to a higher intelligence.

CSQ Statement of Purpose...

The Society seeks to correlate modern science with the philosophies and metaphysics of various cultures throughout the ages.

The Society seeks to understand and develop human mental and physical sensing capacities, and to inform interested others in unselfish, good-purpose mind questing, also known as divining, dowsing, radiesthesia or questing.

The Society seeks to encourage, assist and instruct those who seek a fuller understanding, development and study of the metaphysical, parapsychological and paranormal aspects of life.

The Society clearly defines us to be a co-operative educational group, with no intent to facilitate personal development or counselling.

Involvement and attendance are an individuals choice, and personal beliefs and wishes are strictly respected and encouraged.
